

**NOW AVAILABLE!**

# **NEW!**

## **Chelated Cal-Mag<sup>®</sup>**

### **With 1,000 IU of Vitamin D<sub>3</sub>!**

Item # 3404  
150 tablets

Recent studies have suggested that over 60% of us do not get the recommended 400 IU (RDA) of Vitamin D. And the latest scientific studies show that we need even more vitamin D than previously recommended for optimal heart health, immune function, and long term breast health. These roles are in addition to the critical contribution vitamin D provides towards bone health.

**GNLD introduces another cutting-edge product reflecting the latest in scientific discoveries!**

### **Chelated Calcium And Magnesium With High Potency Vitamin D<sub>3</sub>**

- Adequate calcium and vitamin D as part of a healthy diet, along with physical activity, may **help reduce the risk of osteoporosis** later in life
- Calcium and magnesium, necessary for strong bones and teeth, are also critical for **cardiovascular health, normal blood pressure, nerve and muscle function, PMS and many enzyme reactions\***
- Vitamin D supports **breast, bone, heart, and immune health\***

#### **The GNLD Difference**

- Now with 1,000 IU of vitamin D<sub>3</sub>, the form that is readily absorbable and highly bioavailable
- Exclusive double amino acid chelation to promote higher calcium and magnesium absorption
- Formulated with the preferred 2:1 ratio of calcium to magnesium
- Easy-to-swallow coated tablet

**14 PV, 27 BV, \$28.50 (SRP), \$24.00 (SMP)**
