

Salmon Oil Plus™

Finally

— A COMPLETE
OMEGA-3
SUPPLEMENT!

Mother Nature knows best, which is why GNLD's Salmon Oil Plus provides all 8 omega-3 fatty acids she meant for us to have. Every mother wants what's best for her baby, and we all understand that proper, well-rounded nutrition is critical to a healthy, full-term pregnancy. Unfortunately, many of today's targeted supplements contain only a portion of the nutrients they promise.

GNLD's Salmon Oil Plus is the world's first omega-3 supplement that provides all 8 omega-3 fatty acids, following nature's blueprint for human nutrition. Why is this so important? Because these nutrients form key building blocks for the brain and central nervous system for baby, and support heart-healthy blood chemistry, strong cell structure, and flexible joints for everyone!

GNLD's Salmon Oil Plus:

POTENT delivering a "salmon dinner's worth" of all 8 omega-3 fatty acids in every serving

PURE carefully tested and screened to a "zero-tolerance" standard for contaminants

PROVEN Human clinical trial results published in the *Journal of the American College of Nutrition* show it provides fast and effective omega-3 nutrition

TRUSTED From the worldwide leader in whole-food supplements for over 50 years.

COMPLETE! Because Mother Nature knows best.
